

PRESS RELEASE

For immediate release

25th August 2010

South Wales businesses have been selected for Achievement in International Trade!

The South Wales Chamber of Commerce is pleased to announce the shortlisted businesses for Achievement in International Trade - one of the award categories that form the Chambers of Commerce Business Awards, in partnership with the Western Mail.

This year Newport based Industrial Automation and Control Ltd, Cardiff based Niva International and Merthyr Tydfil based Tectonic International Limited will go head-to-head to compete for the title of Achievement in International Trade.

The Achievement in International Trade Award winners will be announced at the Awards Dinner on Friday 24th September at the Mecure Holland House Hotel.

Nirmal Chhabria, EXECUTIVE DIRECTOR from Niva International, said: "It's a great feeling to have been shortlisted as one of the 3 finalist for the award for International Trade. I would firstly like to thank the chamber and all those people, who thought us worthy of being nominated.

“This is a big achievement for Niva as an organisation, and means a great deal to me as one of the founders of the company and to the entire team at Niva. We endeavour that through our dedication, commitment and support of our various partners and stakeholders we hope to keep up the good work.”

Cardiff based Niva International was started up with a vision to service the niche market demand for metal scrap in various parts of the South Asian Continent. The core business value involves the fast-paced accumulation and recycling of metal-based consumer products, metal off cuts from factories and demolition materials, non-ferrous metals like (Copper, Brass, Aluminium, Stainless Steel) – and containerized exports of the same to various countries across the globe. As a company they are now diversifying into various forms of recycling and storage facilities.

For more details on the Awards Dinner, how to book and other events during Chambers of Commerce Business Week, sponsored by the University of Glamorgan Business School, visit:
