

# Statement

For immediate release

**20<sup>th</sup> July 2010**

David Russ, Managing Director of the South Wales Chamber of Commerce, said:  
“When WAG released their five-year transport plan at the beginning of the year we commented on the need and benefit of having a review of the seven bridge toll prices. During a period of economic downturn it would have been helpful if the tolls were frozen or reduced – particularly for hauliers.

“Therefore, from a business perspective, we support any review or investigation into the affects of the seven bridge toll prices and would welcome any suggestion in the future to have them dramatically reduced or abolished all together.”

**Ends**
